INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON MAGNETICS is published six times per year. Submitted manuscripts should be in areas of science and technology related to the basic physics of magnetism, magnetic materials, applied magnetism, and magnetic devices.

The submission of a manuscript to the IEEE TRANSACTIONS ON MAGNETICS implies that it has not been copyrighted or published and that it has not been submitted or accepted for publication elsewhere. All manuscripts considered for publication are subject to peer review and the established technical and editorial standards of the TRANSACTIONS. The IEEE TRANSACTIONS ON MAGNETICS strongly discourages courtesy authorship. It is the obligation of the authors to cite relevant prior work.

The IEEE TRANSACTIONS ON MAGNETICS publishes articles in the following four categories:

- 1) *Papers*—unsolicited technical articles of archival value, typically less than 15 printed pages in length.
- 2) *Letters*—short technical communications of archival value, limited to a maximum of three printed pages in length. Letters are not intended to report preliminary work. Letters receive expeditious review and handling.
- 3) *Advances in Magnetism*—invited technical articles providing critical reviews of current topics by noted experts.
- 4) *Selected Conference Papers*—technical articles of archival value in connection with certain magnetism-related conferences. Authors submitting papers in this category must follow specific instructions provided by the special conference guest editors and send their manuscripts directly to those editors.

Procedure for Submitting a Paper or Letter

For detailed instructions on the preparation of papers, download either TRANSMAG.DOC or TRANSMAG.PDF from <http://www.ieee.org/organizations/pubs/transactions/stylesheets.htm>. An IEEE style guide, "Information for Authors," may be found at <http://www.ieee.org/organizations/pubs/transactions/information.htm>.

Authors with access to the World Wide Web may submit their manuscripts electronically on Manuscript Central, <http://transmag-ieee.manuscriptcentral.com/>, for fastest processing. Authors without access to the Web may submit their manuscripts as e-mail attachments to transmag@ieee.org.

Page Charges

After a manuscript has been accepted for publication, the author will be requested to pay a charge of \$110 per printed page to cover part of the cost of publication. Page charges for this TRANSACTIONS are not obligatory, nor is their payment a prerequisite for publication. The author will receive 100 free reprints without covers if the charge is honored. Detailed instructions will accompany the galley proof. Color printing of figures is available for a minimum fee of \$1200 per manuscript. For a precise quote, please contact the Transactions/Journals Department at trans@ieee.org.

Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright Law, authors are required to sign an IEEE Copyright Form before publication. This form, a copy of which appears at <http://www.ieee.org/about/documentation/copyright/cfrmlink.htm>, returns to authors and their employers full rights to reuse their material for their own purposes. Authors will be required to file a copyright form electronically after their paper is accepted for publication.
